### Instructions to Learner

The completion and submission of this Logbook is essential for the Learners achievement of the qualification.

The following need to be noted before using this logbook:

1. The responsibility for the completion of the logbook lies with the Learner
2. Entries in the logbook must be clear, concise and in reasonable detail and where additional evidence is required please ensure that it is attached.
3. Learners are reminded that this logbook constitutes valuable record of work experience
4. If workplace experience cannot be attained for Exit Level Outcome, then a simulated working environment can be arranged in order to assess the abilities of the Learner
5. When in doubt, contact your assessor/mentor

## WORKPLACE LOGBOOK

This logbook must be completed by the **Appointed Mentor** to you as the Learner. Ensure to make an appointment with your Mentor before submitting your POE for assessment.

### Instruction to Mentor:

As an appointed Mentor to the learner, you play an important role in the development of a learner and should ensure that you check understanding of the relevant demonstratable outcomes. Carefully read what the learner needs to demonstrate, asks questions around the topic and guide the learner on what evidence would be relevant to include in the portfolio, this evidence can include actual workplace tasks that are being performed and or where performed. Furthermore, ensure to give the learner positive, constructive feedback on workplace tasks related to the outcomes as set out below.

i.e if a learner was part of and or experienced a conflict situation, make comments on the how the learner handled the situation, what they could've done better etc. in the evidence cell and if necessary, at the comment section below.

If the outcome requires the learner to be part of a meeting, give the learner opportunity to do so, and give the feedback on what they did correctly and what they could do to improve.

The table also indicates activities that the learner needed to complete during the process in the Portfolio of evidence and after the process, check the activity and provide guidance and or praise where applicable.

**ID 252036 – Apply mathematical analysis to economic and financial information**

U. std	SO / AC (Reference)	Specific Outcomes and Assessment Criteria	Learner should be able to demonstrate/show understanding of the following	Activity to be Completed by Learner in the POE	Method Used to assess understanding	Supporting Evidence to show learner 's understanding	Date Completed
SO1: Use mathematical techniques to collect and organise data.							
252036	1.1	Appropriate methods are selected for collecting, recording and organising financial and/economic data.	Learner you must be able to use mathematical techniques to collect and organise data. You need to identify the appropriate methods for collecting, recording and organising financial and/economic data. You need to collect the financial and demographic relevant to the unit.	Summative 2, 3 Logbook	Observe learners work when they show their ability to complete the income and expenditure statement summary provided below by filling in figures from the Statement of Comprehensive Income you supplied in previous activity:	The learners adeptly completed the income and expenditure statement summary by accurately incorporating figures from the Statement of Comprehensive Income, showcasing their proficiency in financial analysis.	02/22/2024
252036	1.2	Financial and demographic relevant to the unit are collected.		Summative 3 Logbook			02/22/2024
252036	1.3	Financial and demographic relevant to the unit are recorded in a usable format.		Summative 3 Logbook			02/22/2024
SO2: Apply mathematical techniques to calculate and represent financial and economic data.							
252036	2.1	Averages and standard deviations are calculated using the data collected.	Learner you must be able to apply mathematical techniques to calculate and represent financial and economic data. Be able to calculate the lines of best fit using the data collected and be able to represent in a graphical format.	Summative 3 Logbook	Mentor to observe the learner's demonstrating the ability to analyse the elements of the Income and Expenditure Statement above:	The learners effectively demonstrated their capability to analyse the elements of the Income and Expenditure Statement, showcasing a thorough understanding of financial statements and their components. Their insightful analysis reflects their proficiency in financial analysis and interpretation.	02/22/2024

SO 3: Apply mathematical analysis to indicate economic relationships.								
252036	3.1	Economic relationships are indicated through graphical representation techniques.	Learner you need to be able to demonstrate your understanding on how to apply mathematical analysis to indicate economic relationships. You need to be able to graphical represent and numerical summaries and make sure that they are consistent with the data, are clear and appropriate to the situation.	Summative 2, 3 Logbook	Mentor: Observe the learner's evidence when they indicate economic relationships through graphical representation techniques – use at least 2 and submit all the documents that you used to do this [Note: Graphical formats could include histograms, pie charts, bar charts, line graphs and stack bar charts]	The learner adeptly displayed their understanding of economic relationships by utilizing graphical representation techniques, showcasing proficiency in data visualization. Their use of various chart types demonstrates a comprehensive grasp of graphical formats and their application in conveying economic insights.	02/22/2024	
252036	3.2	Graphical representations and numerical summaries are consistent with the data, are clear and appropriate to the situation.		Summative 2, 3 Logbook			02/22/2024
