<b>Date returned:</b>	2024/02/26

### Instructions to Learner

The completion and submission of this Logbook is essential for the Learners achievement of the qualification.

The following need to be noted before using this logbook:

1. The responsibility for the completion of the logbook lies with the Learner
2. Entries in the logbook must be clear, concise and in reasonable detail and where additional evidence is required please ensure that it is attached.
3. Learners are reminded that this logbook constitutes valuable record of work experience
4. If workplace experience cannot be attained for Exit Level Outcome, then a simulated working environment can be arranged in order to assess the abilities of the Learner
5. When in doubt, contact your assessor/mentor

### Instruction to Mentor/Supervisor

Interpretation of the method used to assess learner's understanding

Key to Methods	Obs	Observation	Q	Questioning	PE	Product Evaluation
----------------	-----	-------------	---	-------------	----	-----------------------

## WORKPLACE LOGBOOK

This logbook must be completed by the **Appointed Mentor** to you as the Learner. Ensure to make an appointment with your Mentor before submitting your POE for assessment.

### Instruction to Mentor:

As an appointed Mentor to the learner, you play an important role in the development of a learner and should ensure that you check understanding of the relevant demonstratable outcomes. Carefully read what the learner needs to demonstrate, asks questions around the topic and guide the learner on what evidence would be relevant to include in the portfolio, this evidence can include actual workplace tasks that are being performed and or where performed. Furthermore, ensure to give the learner positive, constructive feedback on workplace tasks related to the outcomes as set out below.

i.e if a learner was part of and or experienced a conflict situation, make comments on the how the learner handled the situation, what they could've done better etc. in the evidence cell and if necessary, at the comment section below.

If the outcome requires the learner to be part of a meeting, give the learner opportunity to do so, and give the feedback on what they did correctly and what they could do to improve.

The table also indicates activities that the learner needed to complete during the process in the Portfolio of evidence and after the process, check the activity and provide guidance and or praise where applicable.

**ID 252024 - Evaluate current practices against best practice**

U. std	SO / AC (Reference)	Specific Outcomes and Assessment Criteria	Learner should be able to demonstrate/show understanding of the following	POE Activity COMPLETED	Method Used to assess understanding	Supporting Evidence to show learner 's understanding	Date Completed
SO1: Apply the concept of best practice to a unit.							
252024	1.1	The concept of best practice is explained in terms of the practices in a unit.	Learners you need be able to show understanding of best practice in terms of the practices in a unit. You must be able to identify best practices that are relevant to a unit.	Summative 1, 4 Logbook	Mentor to observe learner's show their understanding on accounting cycle. You need to observe learners. <ul style="list-style-type: none"><li>Learner provided a diagram / flowchart to show how information is created, shared and stored your organisation / unit.</li><li>Learner identified best practices related to knowledge management that are relevant to your unit.</li></ul>	The learner effectively demonstrated their understanding of the accounting cycle by providing a comprehensive diagram or flowchart illustrating how information is created, shared, and stored within our organization/unit. Additionally, they successfully identified best practices related to knowledge management that are relevant to our unit, showcasing their ability to apply theoretical concepts to practical scenarios.	02/25/2024
252024	1.2	Best practices are identified that are relevant to a unit.		Summative 1, 4 Logbook			02/25/2024
252024	1.3	The best practices identified define world-class practices for a specific context/unit.		Summative 1, 4 Logbook			02/25/2024
SO2: Analyse current practices in a unit in relation to identified best practice.							
252024	2.1	Current practices in a unit are compared with best practice.	Learner you should be able to compare the current practices in a unit with best practice. You need to evaluate current product/service reliability in terms of internal and external customer expectations. You need to be able to identify the best opportunity for maximum gain for a unit.	Summative 4 Logbook	Mentor to observe learner's conducting the following activities: <ul style="list-style-type: none"><li>Learner compared current knowledge management practices in your unit with best practice.</li><li>Learner evaluate current product/service reliability in terms of internal and external customer expectations.</li></ul>	The learner effectively conducted the following activities: they compared current knowledge management practices in our unit with best practices, demonstrating a keen understanding of industry standards and areas for improvement. Additionally, they evaluated the current product/service reliability in terms of internal and external customer expectations, and successfully identified the best opportunity for maximum gain for our unit, showcasing their analytical skills and strategic thinking.	02/25/2024
252024	2.2	Current product/service reliability is evaluated in terms of internal and external customer expectations.		Summative 4 Logbook			02/25/2024
252024	2.3	The best opportunity/s for maximum gain is identified for a unit.		Summative 4 Logbook			02/25/2024

U. std	SO / AC (Reference)	Specific Outcomes and Assessment Criteria	Learner should be able to demonstrate/show understanding of the following	POE Activity COMPLETED	Method Used to assess understanding	Supporting Evidence to show learner 's understanding	Date Completed
					<ul style="list-style-type: none"><li>Learner identified the best opportunity for maximum gain for a unit</li></ul>		02/25/2024
SO3: Decide on the best practices to be adopted in a unit.							
252024	3.1	The performance outcomes to be achieved by replacing the current practice with best practice are described with examples.	Learner you need be able to show understanding of the performance outcomes to be achieved by replacing the current practice with best practice. You must be able to show understanding of how current practices to be retained with motivations for the retention. You must show understanding of how the best practices introduced with motivations for the introduction.	Summative 4 Logbook	Mentor to observe learner's conducting the following activities: <ul style="list-style-type: none"><li>Learner was able to show understanding of the performance outcomes to be achieved by replacing the current practice with best practice.</li><li>Learner to show understanding of how current practices to be retained with motivations for the retention.</li><li>Learner was able to show understanding of how the best practices introduced with motivations for the introduction.</li></ul>	The learner demonstrated a strong understanding of performance outcomes, retention of current practices, and introduction of best practices, showcasing their analytical skills and strategic thinking in improving operational efficiency.	02/25/2024
252024	3.2	The current practices to be retained are described with motivations for the retention.		Summative 4 Logbook			02/25/2024
252024	3.3	The best practices to be introduced are described with motivations for the introduction.		Summative 4 Logbook			02/25/2024
SO4: Formulate recommendations for implementing best practices.							
252024	4.1	The recommendations described are appropriate for the current practices analysed.	Learner you need be able to ensure that the recommendations described are appropriate for the current practices analysed.	Summative 4 Logbook	Mentor to observe learner's conducting the following activities: <ul style="list-style-type: none"><li>Learner ensured that the recommendations</li></ul>		02/25/2024
252024	4.2	The recommendations presented are in line with best practices.		Summative 4 Logbook			02/25/2024

<b>U. std</b>	<b>SO / AC (Reference)</b>	<b>Specific Outcomes and Assessment Criteria</b>	<b>Learner should be able to demonstrate/show understanding of the following</b>	<b>POE Activity COMPLETED</b>	<b>Method Used to assess understanding</b>	<b>Supporting Evidence to show learner 's understanding</b>	<b>Date Completed</b>
252024	4.3	Recommendations are communicated to stakeholders in order to obtain feedback.	You should ensure that the recommendations presented are in line with best practices You should be able to communicate the recommendations to stakeholders in order to obtain feedback	Summative 4 Logbook	described are appropriate for the current practices analysed – describe how you have done this with examples from your documents. <ul style="list-style-type: none"><li>Learner ensured that the recommendations presented are in line with best practices.</li><li>Learner communicated the recommendations to stakeholders in order to obtain feedback.</li></ul>	The learner demonstrated exceptional proficiency in ensuring recommendations were both appropriate for current practices and aligned with industry best practices. Their thoroughness and dedication to excellence were evident in their clear examples and effective stakeholder communication, highlighting their valuable contribution to our organizational goals.	02/25/2024
<b>S05: Draw up a plan for implementing best practice.</b>							
252024	5.1	The change processes required to support the implementation of best practice are described with practical examples.	Learner you need to develop an operational plan for managing knowledge in a unit in relation to the policies and procedures of an entity. You need show understanding of the change processes required to support the implementation of best practice. You should be able to identify the resources	Summative 4 Logbook	Mentor to observe learner's conducting the following activities: <ul style="list-style-type: none"><li>Learner developed an operational plan for managing knowledge in a unit in relation to the policies and procedures of an entity.</li><li>Learner was able to show understanding of the change processes required to support the</li></ul>	The learner effectively completed several key tasks: developing an operational plan aligned with entity policies, understanding change processes for best practice implementation, identifying necessary resources, submitting a detailed plan with contingencies, and outlining methods for monitoring implementation. Their proactive approach and attention to detail were evident throughout.	02/25/2024
252024	5.2	Resources required are identified in terms of the needs for implementing best practice.		Summative 4 Logbook			02/25/2024
252024	5.3	The plan includes tasks, responsibilities, time-scales and performance measures.		Summative 4 Logbook			02/25/2024
252024	5.4	The plan includes contingencies that are reasonable in relation to the proposed plan.		Summative 4 Logbook			02/25/2024
